OTROCI S POSEBNIMI POTREBAMI MED NAMI CHILDREN WITH SPECIAL NEEDS AMONG US

*18. UNESCO TABOR »KORENINE IN KRILA«
18th UNESCO CAMP »ROOTS and WINGS«
PIRAN, 18. - 24. 09. 2011*

Description

This world of ours is composed of the rainbow of different people, and thanks to all its shades are our lives so kaleidoscopic. Children with special needs have their shades in the rainbow, too. Their wish is in line with the wishes of all of us: **to be accepted**. Every human being has a right to »a place at the table« because we all have the same needs, regardless of differences. Let us dedicate this year's camp to learning about and caring for children with special needs, to see them accepted by their peers.

Supplementary knowledge from teachers is a prerequisite for quality integration of children with special needs. We thought it a good idea to dedicate some time to educate adults in this regard. We are going to invite children with special needs and their mentors to league together with us in our Camp. We shall be able to learn from one another, work together in various activities, exchange experiences and make friends.

Traditionally, national minorities – they lend an exquisite resonance to our Camp- will be given special attention for, according to the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions, »linguistic diversity is a fundamental constituent of cultural diversity«.
